### Generator Certification

**By signing this profile form, the generator certifies that the material listed above is properly identified for transportation according to the applicable regulations of the Department of Transportation. The generator also certifies that this material is not a hazardous waste by reference to local and state law or by reference to 40CFR Part 261 Subpart C and Subpart D. Further, the generator hereby certifies that the material collected from the generator's facility does not contain any PCB's as defined by 40 CFR Part 761, and that the total halogen content is less than 1,000 ppm or the generator hereby certifies that the rebuttable waste presumption under 40 CFR Part 279 has been rebutted. If the material contains PCB's or is determined to be a hazardous waste, the generator will be responsible for any and all costs including, but not limited to, proper disposal, testing and transportation.**

**The generator certifies that information on this sheet and its attachments are true and accurate descriptions of the material.**
